

HANDS-ON PRESENTATION

CUSTOMIZING DIGITAL AND TRADITIONAL REMOVABLE PROSTHETICS WITH GRADIA AND OPTIGLAZE COLOR

EUGENE ROYZENGURT, CDT

Friday, November 8, 2019
8:00 AM - 3:30 PM
Sponsor: GC America Inc.
CE: 6 Scientific

During this course, Eugene Royzengurt will talk about different aspects associated with application of composite materials to 3D printed restorations, milled PMMA prototypes, and traditional acrylic work flow. Eugene will discuss curing parameters and intricacies of composite and OPTIGLAZE application. Students will also have an opportunity to directly work on prepared models and will be customizing layering gingival components on both the red and the white models, as well as the dentition.

Eugene Royzengurt has been working in the dental industry since 1996. He began as a dental assistant, later becoming an in-house laboratory technician, specializing in removable prosthodontics. Eugene's education includes an Associate's Degree and also certificates in Dental Assistance and Radiology. He is also an active member of the Dental Technicians Guild (DTG). Eugene currently resides in Sandy, Utah where he owns Apple Dental Laboratory LLC.

Limited space available. Additional registration fee required. Will break for lunch.
